MILWAUKEE RADIO AMATEURS

TO MARK 75TH ANNIVERSARY OF CLUB

WITH A "SPECIAL EVENT STATION"

AT CEDARBURG RAILROAD DEPOT

SATURDAY, AUGUST 13

The Milwaukee Radio Amateurs' Club will celebrate its 75th anniversary by setting up and operating a "ham radio" station at the telegrapher's desk in the historic Cedarburg Railroad Depot in Pioneer Village, 10 miles north of Cedarburg on County Highway I on Saturday, August 13.

The amateur shortwave radio station will be in operation from 10 a.m. - 4:15 p.m., using voice and Morse Code (telegraphy) to communicate with other stations across the country and around the world.

Amateur radio is both a hobby in which people around the world use shortwave radio equipment to meet and talk, and a public service providing emergency communications in times of natural disaster (earthquakes, forest fires, etc.).
